

introducing **AUTOSCALE™**... ...The amazing optoelectronic gun powder scale by ASI

ASI

GOODBYE, DRUDGERY!

ASI is proud to present the world's fastest, most accurate, gun powder measuring device... the exciting, all solid state electronics, AUTOSCALE™.

This remarkable, simple and trouble free scale, in production after three years of research, represents a major breakthrough in handloading technique. It features dramatic improvements over the old-fashioned measuring method which requires 3 separate units: a hand powder measurer, a mechanical balance scale, and a fine powder trickler. The cost of the AUTOSCALE™ is little more than the combined cost of these three units.

The AUTOSCALE™ is so unique that its design has produced 19 separate patent claims. The heart of the AUTOSCALE™ is the all solid state electronic light emitting diode and the photo transistor sensors. These optoelectronics sense the position of the balance arm to a fraction of a millimeter... far closer than is possible by the human eye. Since the AUTOSCALE™ uses photons of light to sense the position of the balance arm, there is no friction to cause weighing errors. The unique pivots support the balance arm at points rather than on lines as in mechanical scales. Powder is dispensed through two barrels. The high speed barrel controls rapid feeding up to 10 grains per second. The final, precise load is controlled by the slow barrel with an accuracy better than $\pm 1/20$ grain. The result of this design is the world's fastest and most accurate gun powder dispenser.

**NOTE:
DESIGNED FOR
LARGE GRAINED
RIFLE POWDER
ONLY.**

The all solid state electronics is extremely durable, and the impact-resistant case is almost indestructible. The AUTOSCALE™ comes ready to use with complete simple instructions. All parts and workmanship are guaranteed for 10 years from the date of manufacture. In case of problems, return the scale to ASI for repair or replacement.

Magnum velocity, light recoil

AUTOMAG III is a hefty succeder to the innovative .22 magnum AUTOMAG II series. Distinctively styled in stainless steel, AUTOMAG III is the first successful auto pistol to pack exciting M1 .30 Carbine caliber power.

HISTORIC CALIBER

Developed early in World War II, the M1 Carbine quickly proved its capability as an outstanding, highly reliable light-weight combat weapon. The famous carbine served U.S. soldiers and Marines in battle from France's Normandy beachhead to the sands of Iwo Jima and Okinawa in the Pacific. Now the historic M1 .30 Carbine caliber is featured in AMT's new, sleek AUTOMAG III. This pistol continues the AUTOMAG tradition of innovative design and attractive styling. It is the first successful production semi-automatic handgun manufactured in this caliber.

World War II

high pressure ammo!

.45 ACP LONGSLIDE

Extended slide version of 1911 Government Model Hardballer

The venerable 1911 Government Model, glorified in United States' military history, remains the singular, ubiquitous pistol among shooters and gun owners. Designed for combat and security, its modifications provide a superior, high performance pistol for sport and competition. AMT offers a unique longslide version of this fine weapon.

**WIDE ADJUSTABLE
TRIGGER**

This longslide version of the Government Harballer adds 2" to the overall length providing less recoil, added muzzle velocity, longer sighting plane and better balance.

.45 Winchester Magnum AUTOMAG IV

Latest in AUTOMAG series is modern counterpart of historical .45 Long Colt "Wild West" frontier tamer

After 20 years on the cutting edge of magnum power auto pistol innovation, development and production, AMT now proclaims a striking stainless steel masterwork, AUTOMAG IV, .45 Winchester Magnum.

This modern successor to the historically famous .45 Long Colt, "The Gun That Won the West," outperforms .44 magnum products in all respects. A dependable hunting or competition firearm, AUTOMAG IV's pleasing heft and sleek styling define its power and performance capabilities. The pistol clearly breaks new shooting ground and, thereby, extends the acclaimed AUTOMAG series of innovative, unique semi-automatic magnum power handguns.
